GROWING SOILS FOR THE FUTURE - FOOD FOR TODAY

Presented by :

Hamish Mackay

Hamish has been working with biodynamics for 35 years and travels Australia presenting introductory biodynamic workshops, providing growers with clear and practical methods for adopting biodynamics as a cost effective way to produce high quality food and fibre; at the same time improving our environment.

Shane Martin

Shane has been working with biodynamics for over 14 years. Shane provides information support, engages in research on biodynamic outcomes. and assists people to adopt biodynamics. He operates a contract biodynamic and organic spraying service to assist and encourage people to start applying the biodynamic preparations

Shane will be available to spray preparations for you in the Bega region between 22nd August and 2nd September. For bookings contact Nina 6493 8378 or Shane 0421 228 499

You will learn how the biodynamic preparations contribute to the soil food web creating fertility and balance in your soil.
Biodynamics is a cost effective method of producing high quality plants, food and fibre with regenerative ecological outcomes.
Applicable for garden enthusiasts.

This one day workshop will introduce you to all practical aspects needed to apply biodynamics:

- **The life of the soil** • **Creating fertility in your soil**
- **Practical use of the biodynamic preparations**
- **Using the rhythms of nature and moon calendar**
- **Prevention and management of Weeds, Pests, Diseases**
- **Meeting climate change challenges: Drought, Flood, Carbon sequestration**
