Biodynamics2024

AN INTRODUCTION TO BIODYNAMICS

Horticulture, grazing and cropping

Donnybrook, WA

Tuesday 9th Wednesday 10th November, 2010. 9am – 5pm

SUSTAINING GENERATIONAL EQUITY – GROWING SOILS FOR THE FUTURE

Presented by Biodynamic Educators:

Hamish Mackay

Hamish has been working with biodynamics for 35 years and travels Australia presenting introductory biodynamic workshops, providing growers with clear and practical methods for adopting biodynamics.

Brett Kirkpatrick

Brett has been growing vegetables and grazing cattle using biodynamics on Dugite Farm, Donnybrook, since 1990. The farm is certified organic/biodynamic and Brett's produce is recognised for quality and consistency in both the organic and regular markets.

CARING FOR OUR COUNTRY

Leschenault Catchment Council

You will learn how the biodynamic preparations contribute to the soil food web creating fertility and balance in your soil.
Biodynamics is a cost effective method of producing high quality plants, food and fibre with regenerative ecological outcomes.
Also applicable for garden enthusiasts.

This two day workshop will introduce you to all practical aspects needed to apply biodynamics:

- **The life of the soil**
- **Creating fertility in your soil**
- **Managing your natural resources**
- **Practical use of the biodynamic preparations**
- **Using the planting calendar**
- **Developing risk management: Weeds, Pests, Diseases**
- **Meeting climate change challenges: Drought, Flood, Carbon sequestration**

Books will be available for sale
