Biodynamics2024

AN INTRODUCTION TO BIODYNAMICS

This one day workshop will introduce you to all practical aspects needed to apply biodynamics in your commercial enterprise or in your garden

SARINA, QLD. Sunday 14th March, 2010 9am – 5pm

SUSTAINING GENERATIONAL EQUITY – GROWING SOILS FOR THE FUTURE

Presented by:

Hamish Mackay
Hamish has been working with biodynamics for 35 years and presents biodynamics as a cost effective and enjoyable way to produce high quality food and fibre suitable for human health and well-being; at the same time improving our environment.

Ken Mason
Ken is a third generation fruit and vegetable farmer. He has been using permaculture, organic and biodynamic farming principles on his certified biodynamic farm for over 20 years. He operates his farm using minimal inputs while still producing quality produce sought after in the Market place.

Shane Joyce
Shane has spent 30 years evolving his holistic approach to agriculture to include Permaculture, Holistic Resource Management, Biodynamics and now to agriculture as a basis for community development. Shane uses his property as a path of learning both agricultural and social and is an enthusiastic presenter of new options for graziers, croppers and gardeners.

You will learn how the biodynamic preparations contribute to the soil food web creating fertility and balance in your soil.
Biodynamics is a cost effective and personally rewarding method of producing high quality plants, food and fibre with regenerative ecological outcomes.
Applicable for commercial growers and garden enthusiasts.

This one day workshop will include:

- **The life of the soil**
- **Creating fertility in your soil**
- **Managing your natural resources**
- **Practical use of the biodynamic preparations**
- **Using the planting calendar**
- **Developing risk management: Weeds, Pests, Diseases**
- **Meeting climate change challenges: Drought, Flood, Carbon sequestration**

Books and Biodynamic preparations will be available for sale
