

Biodynamics2024

ADVANCED BIODYNAMIC PRACTICES

A one day workshop with John Priestley and Hamish Mackay for those who have been using the biodynamic preparations for at least one year and who wish to participate in a sharing of experiences and questions about biodynamics

Cullen Vineyards, Cowaramup, WA

Tuesday 2nd May, 2012. 9am - 5pm

There is a growing number of biodynamic practitioners who are developing their knowledge, skills and practices in various fields of agriculture, horticulture and viticulture.

Advancing the development and evolution of biodynamics will be achieved through the sharing of these experiences and an expansion of understanding the profound role agriculture has in our culture and the future of life of the planet and its inhabitants.

This event will be participant oriented focussing on the questions and observations of those attending. Hamish Mackay and John Priestley will facilitate the event, hosted by the Mulloon Institute at Bungendore.

We encourage, and look forward to, your participation.

Books will be available for sale
