

Biodynamics2024

AN INTRODUCTION TO BIODYNAMICS

This one day workshop will introduce you to all practical aspects needed to apply biodynamics in your garden or in your commercial enterprise

Presented by:

Hamish Mackay

Hamish has been working with biodynamics for 35 years and presents biodynamics as a cost effective and enjoyable way to produce high quality food and fibre suitable for human health and well-being; at the same time improving our environment.

Books and Biodynamic preparations will be available for sale

this workshop is encouraged by members of the Green Lifestyles Group and the Dorrigo Writers Group.

BLACK COCKATOO, LEIGH, NSW.

Saturday 22nd May, 2011. 9.30am - 4.30pm

You will learn how the biodynamic preparations create fertility and balance in your soil, health in your plants and nutrition in your food.

Biodynamics is a cost effective and personally rewarding method of producing high quality plants, food and fibre with regenerative ecological outcomes.

Applicable for commercial growers and garden enthusiasts.

This one day workshop will include:

- The life of the soil
- Creating fertility in your soil
- Practical use of the biodynamic preparations
- Using the planting calendar
- Weeds, Pests and Diseases
- Meeting climate change challenges: Drought, Flood, Carbon sequestration

BOOKINGS: 02 6657 5274 office@biodynamics2024.com.au

VENUE: Black Cockatoo, Lower Bielsdown Road, Leigh.

Lower Bielsdown Road is 10 km from Dorrigo on the Megan road and Black Cockatoo is the entrance on the left at the end of Lower Bielsdown Road.
