Biodynamics2024

BIODYNAMIC PREPARATION MAKING

Two days of making the biodynamic horn manure and compost preparations with introduction to the spiritual foundations of biodynamics

Dugite Farm, Charley Creek Road, Donnybrook, WA

Saturday 12th & Sunday 13th May, 2012. 9am – 9pm

BIODYNAMICS – GROWING FOOD TO FEED THE SPIRIT

Biodynamics is becoming recognised in Australia as a practical approach to farming and gardening. Biodynamic farmers are achieving viability and quality while at the same time contributing to the development of an Agri-*Culture* we can respect and enjoy.

This workshop will include practical, hands-on making of the biodynamic horn manure and compost preparations followed in the afternoon and evening with an introduction to the spiritual foundations of biodynamics.

The workshop will be hosted by **Brett Kirkpatrick** and **Leonie Inger** with **Hamish Mackay** contributing his knowledge and experiences.

The biodynamic preparations are available for purchase through a number of biodynamic groups around Australia to assist people begin their journey into biodynamics, however, we encourage as many people as possible to become familiar with not only how to use them but how to make them. The formation of local groups who meet each spring and autumn to make the preparations and share their experiences will become an important feature of biodynamic work.

Books will be available for sale
